

I am writing to voice my opinion regarding the above docket number. I currently listen to and financially support a radio station that is a national FM radio station carried on transmitters across the country. KLOVE serves me as a resident of my local community by providing positive, commercial free programming that is good for my children to listen to. The lyrics of the songs they play do not contain vulgar language, immoral ideas, etc. This type of programming cannot be compared to any of the other local stations that broadcast in our area. KLOVE has a very wide listener base in our area, and if the translator was displaced, many listeners would be without this encouraging spot in their day and many children would be left to listen to stations that play songs that speak of violence, sex, drug use and other ideas that are detrimental to impressionable minds. I think that my comments support my feelings that KLOVE is providing a positive influence on the community and its listeners. Eliminating their ability to serve our community would not be in the public's best interest.
